SCRUM PRODUCT OWNER CERTIFIED (SPOC®)

Delivery Method : Classroom

Code : SPOC

Duration : 2 Days

What will be learnt

This Scrum Product Owner Certified course proposed involves a series of classroom sessions in which participants will be exposed to Scrum principles, processes as well as a case study. The case study approach will enable the participants to gain practical experience on how to apply the principles and processes covered in the session.

Over the 2 days, students will develop and solidify their knowledge of being a Product Owner through instruction and team-based exercises. The breadth of the role's responsibilities in delivering a successful product will become clearer from an Agile perspective. Metrics are identified to track the creation of value and the successful delivery of the product to the marketplace.

Examination Format

Applicants will be awarded the Scrum Product Owner Certified (SPOC®) certificate successfully passing the certification exam.

- Multiple Choice
- 140 questions per exam
- One mark awarded for every right answer
- No negative marks for wrong answers
- 180 minutes duration
- Proctored online exam

Audience Profile

This certification is appropriate for anyone who is interested in the Scrum model. It is also appropriate for anyone working as a Scrum Master in his organization. A Scrum Master is an important role in any Scrum team and need not be a technology expert to be effective.

Prerequisites

There are no formal prerequisites for this certification. Anybody working within an agile team or wanting to know more about the mechanics of an agile team is recommended to attend the session.
